FURTHER ARGUMENT. Prosecution in Clark Case Accused of Corruption.

Weshington April 6-Mr. Foster con tined his argument to-day before the Senate Committee on Elections in the case of Senator Clark of Montana. He reviewed at length the testimony of witnesses for the memorialists, contending that much of it was hearsay, and, therefore, not competent. He contended that there was no bribery in the employment of a legislator unless his employment was made conditional upon his yote. He also argued that the fact that legislators had obtained additional wealth was no proof against Mr. Clark, as the increase might easily come from other sources. He declared that a majority of the witnesses for the prosecution were employed by Marcus Daly, and that two-thirds of them were confessedly corrupt. The evidence was, he concluded, incompetent, to convict a tramp for petit larceny, and it was ridiculous when depended upon to unseat a United States Senator.

Mr. Foster was followed by his colleague, former United States Senator Faulkner, who also charged corrupt moffves in the prosecution, saying that it was the result of a combination of wealth and perjury. He laid the blame for the proceeding at the He contended that there was no bribery in

In conclusion, Faulkner discussed the probability that Wellcome should have paid out the \$0,000 used by Whiteside in his exposure, declaring that it was impossible for him to do so because, as he claimed, the evidence showed that from January I to January 16, he, C. W. Clark, Steele and Davidson, all told, had only \$21,000 in their passession. The whole matter had been explained by the bank accounts which had been so freely exhibited.

Faulkner also reviewed the testimeny directly involving Clark, contending that all of it was incompetent and unworthy and urging that Clark had come through the ordead unstained.

Mr. Ledge said that although many speeches already had been made on the Philippine question, he knew of several Senators who desired yer to speak upon the bill. STEP TOWARD MONROE.

Senators Plan to Abrogate Clavton-Bulwer Treaty.

REPUBLIC SPECIAL. Washington, April 6.-Statements made to-day indicate the existence of a plan on the part of a considerable number of Senators to bring to the front a proposition to abrogate the old Clayton-Eulwer treaty and get back to the American policy of dominating the affairs of this Continent without the interpositon of any European

Senator Wellington of Maryland, made this statement: "The result of this fight against the Hay-Pauricefote treaty will be the abrogation of the Clayton-Bulwer treaty. The passage of an act of Congress declaring that treaty of an act of Congress declaring that treaty abrogated has been suggested and is now being quietly, but effectively discussed.

"There are many of us in the Senate who favor a distinctly American canal, built as we please and fortified as we please. That cannot be done, apparently, under the Hay-Pauncefote treaty. The State Department says it cannot be done under the treaty of the

or resolution, but if it can be introduced either by a Democrat or a Republican I would vote for it. Congress has the un-doubted right to abrogate a treaty at any time it sees fit."
Another effort is to be made, however, to ratify the Hay-Pauncefole treaty at this session. Members of the Foreign Relations Committee to-day said that they had not abandoned the convention.

Jacobs says that the amount claimed is excessive, and that he has not been credited with the sum realized upon the sale of his property and collection of book accounts. Also, that, being in prison, he is not able to state the exact amount for which he should receive credit.

Jacobs submits that the genuine and counterfeit stamps have been so mingled as to cause him to be overcharged to the probable amount of \$90,000. He says that if he is permitted to go over his books and sift out the amount honestly owed by him to the Government, he will not dispute the entry of judgment against him for the entry of judgment against him for the property and that otherwise he will be greatly injured.

LIGHT COTTON TRADING.

Market Narrow, With Prices Unchanged to Five Points Lower. REPUBLIC SPECIAL.

New York, April 6.-There was not much speculative stir in cotton to-day. The market was less "a one man market" than it has been for some time. The local situation, however, is still dominated by fears of manipulation and the room traders move with caution, "Outsiders" scarcely moved at all.
The decline at Liverpool was less than

The decline at Liverpool was less than generally looked for and our market opened, about steady, with prices 2 points lower to 1 point higher. After the opening call the general list leveled up to an advance of 4 to 7 points, partly on the strength of the Liverpool weekly cotton statement, which had an unmissakably bullish significance.

The bears proceeded, however, upon the theory that this feature and all other bullish characters were discounted in present theory that this feature and all other bull-ish features were discounted in present prices. After waiting in vain for the Wall-street contingent to renew its recent buy-ing tactics, some of the room operators com-menced to sell in the absence of outside, or public, support, and the market caused off 7 to 19 points from the best figures of the

ves certain acts of that Government, at an end, but the State Department refuses to take that position. I am certain that the lead hesitation increased by unsatisfactory accounts from the dry goods market, which pointed to a materially smaller call for cotton goods.

Referring to the bill proposed to abrogate the Clayton-Eulewer treaty, Senator Morgan said to-night:

"I would not care to intreduce such a bill or resolution, but if it can be introduced either by a Democrat or a Republican would vote for it.
